

**MINUTES OF CITY COUNCIL
SHEFFIELD LAKE, OHIO
August 20, 2013**

The regular meeting of the City Council was held Tuesday, August 20, 2013. Council President Rosso called the meeting to order at 7 pm.

THE INVOCATION WAS GIVEN BY: Kay Fantauzzi, who then led in the Pledge of Allegiance.

*******ROLL CALL OF MEMBERS*******

Present: Rosso, Elliott, Smith, Kovach, Cizl, McCullough, Erdei, Mayor Bring, Finance Director Smith, Law Director Graves, Treasurer Woods (7:30 pm)

Absent: Council person Stark, Service Director Smith (excused)

Attending: Concerned Citizens, Members of the Media: Avon Lake Press

READING OF THE MINUTES:

A – Council – *Motion by McCullough/Second by Kovach to accept the minutes of the July 23, 2013 Council meeting with any corrections. Yeas All.

CORRESPONDENCE:

A – Monthly report of court receipts for month of July, 2013 as submitted by Clerk of Courts Francine Shover - \$5939.20.

PRESENTATIONS:

Mayor Bring submitted the name of Rosa Gee for the position of Demolition Board.

*Motion by McCullough/Second by Kovach to approve Rosa Gee for the position of Demolition Board. ROLL CALL FOR APPROVAL: Yeas All – McCullough, Cizl, Erdei, Kovach, Smith, Elliott.

Mayor Bring swore in Rosa Gee for the position of Demolition Board.

CITY COUNCIL REPORTS

Roads, Drains, Water, Sewer and Refuse: None./Safety: None./Buildings, Lands, Vehicles & Equipment: None./Ordinance: None./Finance & Audit: None./Council Representative to the Joyce Hanks Community Center: Representative McCullough advised some general points that are coming up right now, if you notice on the sign they are advertising for yoga classes that are tentatively scheduled for mid-September and they are available to anyone and a small fee will be charged. Although verbally confirmed by the Board of Elections the grant obtained by for them for the concrete repair work by the threshold remains in limbo. They are waiting for the state to release the funds and then schedule the work. The buildings floor burnishing machine which is over 15 years old is being laid to rest probably as we speak. He was using it and it went dead, there is no way to fix it and approximately \$1000 to \$1200 for a

new one. So I think it is pretty cheap for what he needs to do, he burnishes once a week. You may get something in front of you of how we can finance it but he is going to need one. Right now he has got a rental. The Ohio Department of Health and Department of Agriculture just got done with their quarterly inspections and there were no violations. Fire suppression has just been serviced this past quarter and the kitchen hood is scheduled to be cleaned in September. There are sporadic leaks in the west room in the Civic Center, those repairs have been covered under the Neal Barral warranty except the puncture that was discovered in June. Part of the problem and Pat thinks it might be a problem is they put that roof on and then they put the solar panels on and with the high winds that we have experienced through a couple of storms it may be flexing that roof a little bit. He is going to ask somebody when they are up there if they can check into that because as anybody knows a flat roof is very hard to find a leak but we discussed it and pretty much those panels act like sails. The second annual summer picnics for the Lorain County Chapter of the public employee retirement system as well as the local Chapter of the Red Hatters. Although rare Pat will be withholding a deposit of a wedding there on August 17th, they used sticky hooks on the painted walls and did considerable damage to those walls. Last night after the meeting Pat had to stay and mud the walls with a joint compound and that will be a 3-day process of course whenever you get a hole in drywall. Along those lines, can I ask David if he can take a look at the contract and maybe rewrite that contract for when people exceed the deposited amount as far as damages. One hundred dollars – Pat will have more than that just in time and material and it shouldn't be just time and material. It should be high where we can recoup the money that it actually costs to get it done. I personally think that \$100.00 is too cheap for a deposit on the center on a Saturday night because people can walk away with that \$100.00 and then Pat has to clean it. I would pay somebody \$100.00 for my mess. He is afraid that if he raises the deposit though that he wouldn't get the rentals but I think he will still have the rentals. Meals on Wheels is 82 meals a day and currently the food bank is serving 91 families or 310 people monthly. All the shows that normally go on like the CCC, Erie Shore, Northern Ohio gaming, AA, knitting and yarn groups, yoga classes, card games and Boy/Girl Scouts, Soccer. Councilman Erdei stated I know I mentioned it the one time and I saw it up there just for that one month that I saw the one scheduled Council meeting, is he going to at least continue to put that on at least a few days before our Council meetings. Representative McCullough answered I didn't ask him about that, his big thing right now is trying to keep people abreast of what is going on within the community and not including Council and it is probably an oversight on his part and I will drop him a line. If you go past there that thing changes every day, so he is up there trying to get in it. If you scroll too fast you get none of the information and if you scroll too slow you have to drive back and forth to get all the information. Councilman Cizl asked can I have an idea of how the solar panels are doing, cost savings wise? Representative McCullough answered other than the pole that needs to be moved that was costing us money I guess. Actually Len has that infor-

mation. Finance Director Smith advised we get a report on a fairly regular basis of how many trees we have saved. Representative McCullough advised is it printing money – no but it is not costing us as much money I guess would be the answer. President Rosso asked does it work like the windmills where we get a credit back. Finance Director Smith answered it does save us. I will check on that and let you know. Representative McCullough advised are next scheduled meeting is November 18th at 7 pm at the Community Center./*Council Representative to the Zoning Board of Appeals: None./Council Representative to the Planning Commission: None./Council Representative to the Park Board:* Member Kovach reviewed the minutes of the July 15, 2013 meeting.

ADMINISTRATIVE REPORTS

MAYORS REPORT: Mayor Bring advised most of you know that Mr. Smith has probably not been here for the last 3-1/2 weeks and he probably will not be here for a couple of months. He needs to get some things taken care of and when he comes back I am sure he will enlighten you but I will continue on with my report. Right now Pat and I are handling that part of service. I have been taking a lot of phone calls, I have been here every day. I have given the guys enough work for the next 2 months. Pat and I are fielding all the phone calls, he is taking some and I am taking some. So far it is working. Pat canceled 1 of his vacations that he was going to do to make sure that this was taken care of and I will tell you the guys in the departments have stepped up basically because I am here every day too though. I am spending a little bit time here then I should but things are getting done and I am very happy with the way things are going. When Mr. Smith gets back we will get in the groove here but until then I will be handling it. Just to let you know, we started Lafayette Ditch as we have had a tremendous amount of flooding over here at the corner with a couple of these houses. What we are going to do is actually cut across the road and continue the water all the way down into the lake. Before it was actually splitting right and splitting left and the water was getting backed up, so I have already had them go down with the one machine and do some grinding and get some of that brush cleared out. We went back with the backhoe and cleaned it out. We went through 4 driveways and blew it out with the white truck and they were full of mud, there was no water going down there. That water actually goes down and then actually crosses the road down there by Bi-Rite underneath the road and I see people go down after we dug out the ditch and there is still water there and they are all pointing. Well we still have to continue all the way through where I had them cut through there. There is supposed a ditch, it is not – it is flat so we have to cut that up. There was someone that came out and said that has not been done since 1971. That is one thing we are working on. Walker Road – if you have gone down there, I had Frank clear all the brush on the one side and he got half way down the other side. We are going to continue that and we are going to dig that ditch out and throw the dirt on top of that and Pat is coming back with the bulldozer and we are going to bulldoze all that. So we started that. We are going to go

after that, we have got the ditch over there behind Speedway that is not really that open. We are going to take the machine down there and go in and clean that out and again dig that out. So those are 3 major things that we are doing. We are taking the grindings which have been laying behind Shoreway Shopping Center for the last 4 years, we have got probably half of that moved over to Guenther Park. Pat has bulldozed that and we are going to roll that out after we got done. That should take care of most of those grindings, we have got a few other places we are going to take that. Behind Volunteer Field over there – there was just a dirt field, Mr. Griffith actually took all our grindings from our streets over there and the day before that kick ball tournament bulldozed all of that and rolled it out. There is probably 150 parking places that he did with that. There are some additional dumpsters that we still had here, Pat and I have determined that we are no longer going to have those. I had him get the chipper that Mr. Gardner said was going to take up way too much time and it has been on-going for I can't tell you how many years. We kept throwing the branches in the dumpster and pushing them down and we had probably 90% of air space. So we had a big pile of branches the other day, I had it chipped up and Pat said it took him 15 minutes. So this is going to be the new process. When he got done with the chipper a resident pulled in and said can I have the chips? So that is the whole idea so we are going to continue that and keep a pile there and we are going to get rid of those dumpsters and that should save us several thousand dollars a year. The street cleaner – the one that you see, that big white one – that has broke down and I will tell you I wasn't real happy with that anyway. We are going to get rid of that and we will have to bring that to you guys. For right now I temporarily put a brush on the back of a tractor and I had him go up and down Lake Road the other day, he actually did it twice and it took him probably an hour and a half. If that would have been that big street sweeper it would have been 6 hours. Plus we took the street sweeper, we would have to take that stuff and put it in a dumpster and had to fill out the manifest papers and that costs us several hundred dollars so throughout the year that was a couple of thousand dollars. So we are going to eliminate that process but next year we are looking into an attachment that goes onto the skid-steer that has a brush that sticks out to the side because on these side streets some of them are angled and we need to get that out there. So we are probably going to get that into the process and it is not that expensive. The maintenance alone in what we had on that white sweeper will cover the costs on that, so that is what we are going to do with that. We have got almost all of the roads paved; we have Erieview to do and Oak Street. The reason we didn't do Erieview the other day is because we had the first day of school starting today plus we had garbage pickup on that end of the street. We did not want to conflict with that. I will say that we had taken some no parking signs over there and put them up so the people would stay off of the streets and we came back 2 hours later and they were stolen. The other problem is that the other day when they chipped the street they back to clean the street out to get the grindings out of there and people were already parking on streets. The guys just said screw it and they left and then we had people calling

and saying they didn't clean the street. Yes they didn't clean the streets because everybody was parking there and that will be something else I bring to you too. The parking is out of hand on all these streets. Garbage on Monday on the west end of town, the excess; because we have an overflow for the third week of the month was not picked up and that was due to the fact that the trucks had a breakdown. So they went back today and they were supposed to take care of that and I am assuming they did but I did call them. Councilman McCullough stated the guy stayed out and at 7 pm he picked ours up on Monday night. He was out at 7 o'clock still picking up, they were doing that section of Hawthorne down by Oliver and he was fighting around them but he was carrying garbage while they were working on the street so he was doing his job, more than his job. Mayor Bring continued we had a water main break on Irving Park and that has happened a couple of times over there, we did fix that which that took a 25-inch clamp. Irvin Park has a serious problem with breaks and so is Lake Breeze, those 2 things are going to have to be addressed here and I am going to have to get the engineer involved and see how we are going to address this. If you go down Lake Breeze and look at all the patches, we are running out of patches. We have probably got \$7000 to \$8000.00 in clamps in a 25-foot area. So it is getting to the point where it is getting ridiculous and the other day was the same thing. We can't fix something/you get a break on Sunday and paying the guys overtime/school is going to start so we had to get this thing done as fast as we could so the only thing we could was to clamp it off for now and we will have to go back and address that. Getting back to the parking, in Sheffield Village, Avon Lake and Bay Village – this is something we will discuss in Worksession – they have no parking at night time on the streets. Pat told me to bring that to you guys because basically the Safety Forces are having a hard time getting down the streets with cars parked and when they do snow-plows the snow banning does not work because by the time they get out there and everybody is complaining and then I am supposed to declare that but that is not true because as soon of snow they have to get off the streets and it is a big fiasco because all they do is fight and argue with them so that is something that I am going to be bringing to you guys and we will have more discussion on that. I drove around the city for the last 2 days in the evening and during the day and looked at all the cars parked and it is totally out of hand. You can tell the police whatever you want but there is so many cars parked on the street that you can't even get around these streets anymore – it is ridiculous. So that is another thing that we will address. Just one thing is that Rob DeChant our new mechanic, you know I never say anything about this guy but he has fixed so many things here since he has been here I can't tell you what a blessing it is to have that guy and how many things he has fixed and I have to give that guy credit. He has been an outstanding employee and that is not saying that the guys aren't but the lack of having someone like this around to do stuff and he has just saved us a ton of stuff and I just want to thank him. The other part is that we only have 3 guys over there in the Street Department and we got 1 off now and the other one is going off tomorrow and Pat will be all by himself so all this stuff that I just

told you about, this is with 3 guys and most of the time it is only 2 guys and a lot of things are getting done but we basically only have 2 guys on most of the time. The other reminder is what Steve said is we have that August 24th for the fishing tournament, it probably wouldn't hurt to go down and see what is going on and say hi. Then September 19th we have the festival going on. Councilman McCullough stated if none of you have ever seen a water main break or how they fix them ask them to call the next time – it is pretty incredible number one. I am glad you said something about the 25-inch, the 6-inch one that they normally use is \$800.00 and they were literally putting this one this far from another break they already had. So we are going to have to as a Council help and make sure and try to figure something out they we can start attacking these problems because they are problems because once he put the one strap on he had a whole line just blow out the bottom of the pipe. President Rosso stated I am sure I would be willing to listen to whatever the Mayor and the Service Director have to say. Councilman McCullough asked are our guys not licensed to change that pipe? Mayor Bring answered I don't know about that, it is our pipe. Councilman McCullough stated I am just asking, I have been trying to find out that answer and I can't find whether they are or they are not. Mayor Bring answered most of those guys all have certifications through several things. Councilman McCullough stated I think most of it has to do with how that collar goes on there. Mayor Bring answered I am not sure but I can find out. Councilman Erdei stated going way back when I was going to Council meetings and it was probably just before they were wanting to do that wind turbine in the shopping center, I thought you guys had agreed and from what my understanding was that there was going to be a fence around that wind turbine instead of just those rocks that are there now. What is going on with that, we are lucky no one has ever tried attempting to climb that thing. Mayor Bring answered even if you put a fence up, you are going to put barb wire, etc. but you are never going to keep anybody off of there that wants to go on there. Mr. Smith and I discussed the fact last year there is a guy over on Oster Road that makes these decorative rocks and I think that is the way we were going to go. We have been discussing this for quite some time and I can say that it has gotten away from us but there has been some other issues and when I have been talking to Mr. Smith and with everything that has come up here lately. There is a few things that have been put on the back burner and that is probably one of them. I probably won't address that right away. Also, I didn't tell you about this but Shoreway Lounge has announced that they are not going to be open after next month. We also lost one of the internet café's. We are trying to be very frugal with what is going in Shoreway right now. If I do that over there it will come out of the Shoreway fund. Like I said trying to keep somebody out of there completely is next to impossible but we do need to make it look better. Councilman McCullough asked which internet café? Mayor Bring answered Gus's. *Motion by Kovach/Second by Erdei to accept the report. Yeas All./

FINANCE DIRECTORS REPORT: Finance Director Smith reported I just got notification from the county that they cut our local government fund another \$2000.00 just through the end of this

year so that means that there is a good chance that our funds will be cut next year as well. I know it doesn't sound like a lot but when you are down to trying to figure out who is going to get paid what \$2000.00 means a lot. Next month I will probably be bringing you some changes, I am going to try to lower some things to keep us going.

*Motion by Elliott/Second Kovach to accept the report. Yeas All./**TREASURER REPORT:** report attached./**SERVICE DIRECTORS REPORT: None.**/**SAFETY DIRECTORS REPORT:** Mayor Bring advised remember school has started so be very careful out there, there is a lot of kids running around out there. The other problem is and Dave and I discussed this the other day if you saw some stuff going on in Avon Lake, they are addressing a drug problem and we are probably going to be something similar to that and having some meetings. I actually talked to the school Principal yesterday and asked if I could do a little talk with them and talk about this problem that we are having. We have had about 8 overdoses here in the last 4 months and most of them have been brought back through the Narcan drug but we are going to have to look into this a little bit more seriously. Councilman Elliott stated the overdoses are county wide epidemic, in this whole part of the state that number has actually exploded. It is something that I am not sure law enforcement can address but we should probably try. Mayor Bring advised we are going to need outside help on this, I know that Mr. DeWine is having a meeting Thursday about this and he has invited Mayors and unfortunately I can't make it there but obviously if he is getting involved there is people that are complaining about it and it does need to be addressed. Our Police Force is way too small to chase these guys around all day, so we are going to look for something/some kind of help. *Motion by Kovach/Second by Elliott to accept the report. Yeas All./**LAW DIRECTOR REPORT:** Law Director Graves advised on Mr. McCullough's comment on raising the deposit fees at the Community Center and that is set by ordinance. The Park Board does have jurisdiction over rules and regulations for the Center but the fees are actually set by Council by ordinance section 969. So if Council wanted to take that issue up, perhaps Buildings and Lands Committee would be appropriate committee to discuss that. He reviewed legislation set forth for tonight. Councilman McCullough asked on Council#036 – this is costing us nothing? Law Director Graves answered that is correct. Councilman McCullough asked on Council#037, I am not reading this right – in the event there are urgent reasons for filling vacancies in the Sheffield Lake Police Department and the Civil Service Commission is unable to certify a new list of perspective candidates the city may appoint a part-time Patrolman to a temporary full-time Patrolman pursuant to ORC 124.3. The questions I have here is it doesn't read that the people that we just put on full-time fall under this because we haven't had a Civil Service Commission. Law Director Graves answered that language is just a whereas clause explaining the need for this legislation, that language is directly out of the ORC and that was part of the motion when we appointed those part-timers. If you recall when we made the motion to appoint them as provisional full-timers – that language is in there. That is the language from the ORC that allows for provisional full-time employment so given that

we have made that appointment it is necessary to set the rate of pay. Councilman McCullough stated I thought we set the rate of pay with that ordinance? Law Director Graves answered no that was modifying part-time pay. Councilman McCullough stated now we want to take the part-time guys who are taking the full-time hours – pay them full-time pay at the highest rate? President Rosso clarified not the part-time, the 2 provisional full-time guys. Councilman McCullough stated I know but if you go on to read this it pays them at the highest full-time Patrolman as set forth in the CBA. President Rosso stated yes it pays them at the same rate as every other full-time Officer. Councilman McCullough debated no it doesn't – it pays them the highest rate. Law Director Graves concurred. He explained I think the point is that the 2 individuals that we appointed have years and years of law enforcement experience as Officers. Councilman McCullough advised I am not denying that. Law Director Graves continued they would have reached the highest full-time threshold, they currently earn 90% of the highest full-time pay. Finance Director Smith added and we have no one that makes the minimum – we have nobody at the lower rate. They are going to be at the same rate the other Patrolman are that are current and they get no other benefits. Councilman Smith stated I thought it was 90%? Councilman McCullough stated that is what we agreed to, that is what I thought we agreed even when we did this and we were moving that around so they didn't have to go through their hours again. President Rosso clarified no that was part-time, that is different than these provisional. So don't confuse the part-time rate that we changed a Council meeting or so ago with this rate for these 2 people that are provisional hires. When we hired them they fell under the 90% because that is what it says in today's language. It has nothing to do with that ordinance that we passed for part-time employees. Councilman Smith asked so this ordinance is actual pay ordinance for a temporary provisional full-time employee for these 2. Law Director Graves stated another caveat of the employment was that it would be a period not to exceed 120 days so at the end of that period of time when they revert back to part-time they would go back to the 90% rate. This is just for the time that they are working full-time hours. Councilman McCullough stated I am aware but I would have like to have known this though when we did it not that it would really made a difference. President Rosso stated don't confuse the part-time rate that we changed a Council meeting or so ago for these 2 people that are provisional temporary full-time. Law Director Graves advised another caveat in the employment was that it would for a period of not to exceed 120 days. So at the end of that period of time when they revert back to part-time they would go back to the 90%. This is just for the time that they are working full-time. Councilman McCullough stated I am aware of this, I would like to have known this though when we did it, not that it would have really made a difference. Finance Director Smith added but they are outside the bargaining units and they get no other benefits. President Rosso stated they are able to be paid today at the 90% rate, they just want to take it to the 100% for these provisional positions. Councilman Smith stated if you are saying it like that then I know what he (Council McCullough) saying – well that should have come up.

President Rosso advised when we appointed them to the provisional spots. Councilman Smith concurred and we are going to increase their pay to 100% after they become full-time. Councilman McCullough asked the union doesn't have a problem with this? Finance Director Smith stated we didn't know we would ask them be hired provisionally at the time we hired them part-time because we didn't know Monica was leaving and then we have a full-timer out on sick leave. Councilman McCullough stated you are going off the CBA and their don't have a problem with us paying them the highest full-time rate? Finance Director Smith answered correct. Councilman Smith stated that is Patrolman rate, not Sergeant rate. Councilman McCullough stated they signed up for it. I don't have a problem with that because I mean they are doing full-time work and they got 30 some odd years of experience. Does the 120 days still go into effect being that they are full-time provisional employees, being that they stepped up from part-time to full-time. That part-time is still valid, that part-time is still valid. Councilman McCullough stated like I said not that it makes a difference, I just would have liked to have done all of this at once and it does make a difference it just feels funny that we are coming back a month later. Law Director Graves advised keep in mind too, the reason for the other ordinance was because the way the previous pay ordinance read for the part-timers. These guys would have had to work 3000 hours and the other thing is I know it is odd that our newest appointees are the ones fulfilling this job. These positions were offered to all the other part-time people. Councilman McCullough reiterated David I not questioning that at all, I totally understand all of that but I am just saying that it would have nice to just do this all at once and it looks like okay and it looks like okay we know all up front. If I was just walking off the street and picked this up and I was sitting out there I would be at the podium in about 30 seconds asking the same questions. I totally agree with what we did, I know what we did and I know why we had to do it, I know who was offered everything – it is just that back then we should have said hey we are going to come at you with an ordinance next month that is going to establish their rates – that is all, it just seems funny. I didn't say it was wrong because if you remember right I thought we needed to move along with that and I pushed through on that and also the part-time pay that should have been this meeting. *Motion by Erdei/Second by McCullough to accept the report. Yeas All.

CITIZEN'S COMMENTARY:

Rosa Gee, 588 Kenilworth stated next Thursday there is going to be a meeting here at the Library here in Sheffield Lake. It is going to be a brief meeting since the Library closes at 8:30 so we have to leave prior to their closing so they can organize and the reason this meeting is going to be happening is as everybody is aware November 5th on the ballot we have the tax issue #18 is the issue number. We are trying to gather some people around to help support and help get the information out on the ballot. So if anybody knows of someone or if any Councilmen want to come and again it is this Thursday at 7 pm.

UNFINISHED BUSINESS:

Councilman Erdei asked what is going with that OPBA, they were going on – you guys were negotiating they wanted money. Law Director Graves stated they had expressed the desire under the current contract to reopen and they have decided not to proceed with that. We will be in negotiations with all 3 bargaining units, well at least 2 of the bargaining units coming up.

NEW BUSINESS: None.**ORDINANCES AND RESOLUTIONS:**

Council#036 – EMERGENCY – a resolution authorizing the Mayor to enter into an agreement with the Lorain County Metro Parks to construct a temporary walking trail along the south side of Forestlawn right of way between Idlewood and Harris and the declaring of an emergency.

*Motion by Elliott/Second by Kovach for SUSPENSION OF RULES:

ROLL CALL FOR SUSPENSION OF RULES: Yeas All – Elliott, Cizl, Smith, Erdei, Kovach, McCullough.

*Motion by Elliott/Second by Kovach for ADOPTION:

ROLL CALL FOR ADOPTION: Yeas All – Kovach, Smith, Erdei, McCullough, Elliott, Cizl.

Resolution Passes#35-13

Council#037 – EMERGENCY – an ordinance of the Council of the Sheffield Lake establishing the rate of pay for temporary provisional Full-time Patrol Officers for the City of Sheffield Lake’s Police Department effective July 21, 2013 and the declaring of an emergency.

*Motion by Elliott/Second by Kovach for SUSPENSION OF RULES:

ROLL CALL FOR SUSPENSION OF RULES: Yeas All – McCullough, Cizl, Elliott, Kovach, Smith, Erdei.

*Motion by Elliott/Second by Kovach for ADOPTION:

ROLL CALL FOR ADOPTION: Yeas All – Erdei, McCullough, Elliott, Kovach, Cizl, Smith.

Ordinance Passes#36-13

MEETING ADJOURNED: With no further business before this council, Motion by Kovach/Second by Elliott to adjourn at 8:03 PM. Yeas All.

CLERK OF COUNCIL AFFIRMATION: This Meeting Of The City Council Of The City Of Sheffield Lake, Ohio Was Held And Conducted Under All Rules And Regulations Governing The Sunshine Laws Of The State Of Ohio As They May Apply. All meetings are recorded and available in council offices.

CLERK OF COUNCIL/COMMITTEES

Kay Fantauzzi

COUNCILPRESIDENT

Rick Rosso

and/or

COUNCIL PRO TEM

Eric S Elliott

I, Kay Fantauzzi, duly appointed Clerk of Council of Sheffield Lake DO HEREBY CERTIFY that this is a true and exact copy of the Minutes of COUNCIL of August 20, 2013.

MAYOR

Dennis Bring
