MAYOR: Mayor Bring reports at the boat launch, we still need the repair on the wall. I talked to them the other day and they are trying to get to it. The graffiti and damage at the bathrooms at the boat launch came to over \$3,000. We did pursue the videos and found a person of interest. We knew the first name, but not the last. Then an attorney called and said I heard you were looking for my client and he gave the first and last name, so we have now filed charges and are asking for restitution. I signed the papers for the Lincoln Trail. I also got confirmation on the plow truck and best case scenario is going to be next Sept. The ambulance is going to be next August. There is nothing we can do about it. We have hired a fireman to replace Pat and will swear him in Tuesday. We have interviewed for part-time policeman, and I think we will be bringing someone Tuesday for that as well. The new chief is doing a good job, but it is going to take some time to get going. I am excited that it is going the way it is. We continue to do ditching and we are doing some tree removal along Lake Rd. The new chipper is working quite well. Councilman Wtulich asks in Day Ditch, a lot of vegetation is growing back, is that intentional? Mayor Bring replies that is by design. It filters the water. If it gets too high, we will obviously do something, but I believe they are supposed to get 4-5ft. Councilman Cizl asks with the chipper, is the procedure going to be people bring it to the parking lot and we do it like the old days? Mayor Bring responds no, we

come right to the house. Just contact the city and give a couple days' notice. Councilman Erdei asks are we going to get down on the people who rake leaves into the street and go into the sewer? Mayor Bring responds since we have been filling in a lot of these ditches, that really hasn't happened. We have 2 vacuums now and last year it went really smoothly with no problems.
