**MAYOR/SERVICE DIRECTOR'S REPORT**

Mayor Bring reports we had a major water leak behind Amber Oaks and it caused a lot of low pressure for about an hour or two. That is the second time it has broken and it's a main line, so we are going to have to take a look at that. The guys responded quickly. We had water shut offs and for the most part, I think every body complied. We are averaging about 29 a month, but by the day comes, around 90% pay. The guys were putting a drain line across Willow Lane and a lady wasn't paying attention and ran into that ditch. We turned that into the insurance company. The fire dept. is doing fire hydrant testing starting this week. Also, we have had some people losing trash cans and I don't know if people are stealing them or Republic is accidentally throwing them in the trucks. Chairman Wtulich asks when that happens, just call for another one? Mayor Bring replies we do, but I don't know if they are going to charge these people or not. I would like to find out what's going on.

**OLD BUSINESS:** None.

**NEW BUSINESS:** Chairman Wtulich asks on the culverts that run down Sheffield, the box where water runs to is really small, I just wonder if there is any engineering that could be done to open those up? Mayor Bring replies that would have to be torn out completely and redone. It would be pretty expensive. I think the concrete is built around the pipe itself. I can have them look into it.

**CITIZEN'S COMMENTARY:**
